December 2007

The greatest gift we could ever receive was sent to us in Christ over 2,000 years ago! In reviewing our last year's Christmas letter we have so much to be thankful for! We are especially thankful for our safety. Last year at this time I was recovering from a car crash. God has been so good to us as we have logged more than 30,000 miles in work and ministry. We thank you for your prayers, because God's care is evident.

The ministry has grown and lives are being changed. We have sought to keep you informed by increasing our mailings to four times this year. Our website is now archiving previous newsletters. Clients themselves are realizing the value of the ministry. We recently received an encouraging note:

" Thank you for your effective counseling.
I feel a lot better than before."

Clients are referring friends, relatives and acquaintances to the ministry as they have seen positive help for their lives and speak about the help they have received.

A projected deficit of \$5,000.00 will exist by years' end. Would you be willing to share an end of the year gift to help us with expenses?

Many of you have already committed to monthly financial support for which we thank you sincerely.

Please know we think of you often with love and good memories and trust you will continue to be encouraged and filled with hope as God continues to shape and mature our lives in 2008.

Merry Christmas and Happy New Year

Love,

Gordon and Emily
